INGREDIENTS CATALOG

Natural ingredients from Indonesia

Benzoin Sumatra • Patchouli • Cinnamon Kerinci • Vetiver Java • Clove • Nutmeg & Mace

INTRODUCTION

Natural ingredients from Indonesia, prepared for perfumery.

Indonesia is home to some of the best-loved materials in perfumery. Our range brings together resins, leaves, roots and spices, each with a character shaped by the place where it grows.

We follow every ingredient from the plant to the finished material, so that what reaches the perfumer is true to its origin and ready to create with.

Clove

05 • Spice • *Syzygium aromaticum*

Nutmeg & Mace

06 • Spice • *Myristica fragrans*

Resin

01 / 06

Benzoin Sumatra

Styrax benzoin / S. paralleloneurum

ODOUR PROFILE

Balsamic · Sweet · Warm

A warm, balsamic resin with sweet, vanilla-like and softly spicy facets.

Perfumery usage

Brings warmth and roundness to amber, oriental and floral accords, and helps a fragrance last on the skin.

Did you know?

Benzoin is the resin of the Styrax tree, known in Indonesia as kemenyan.

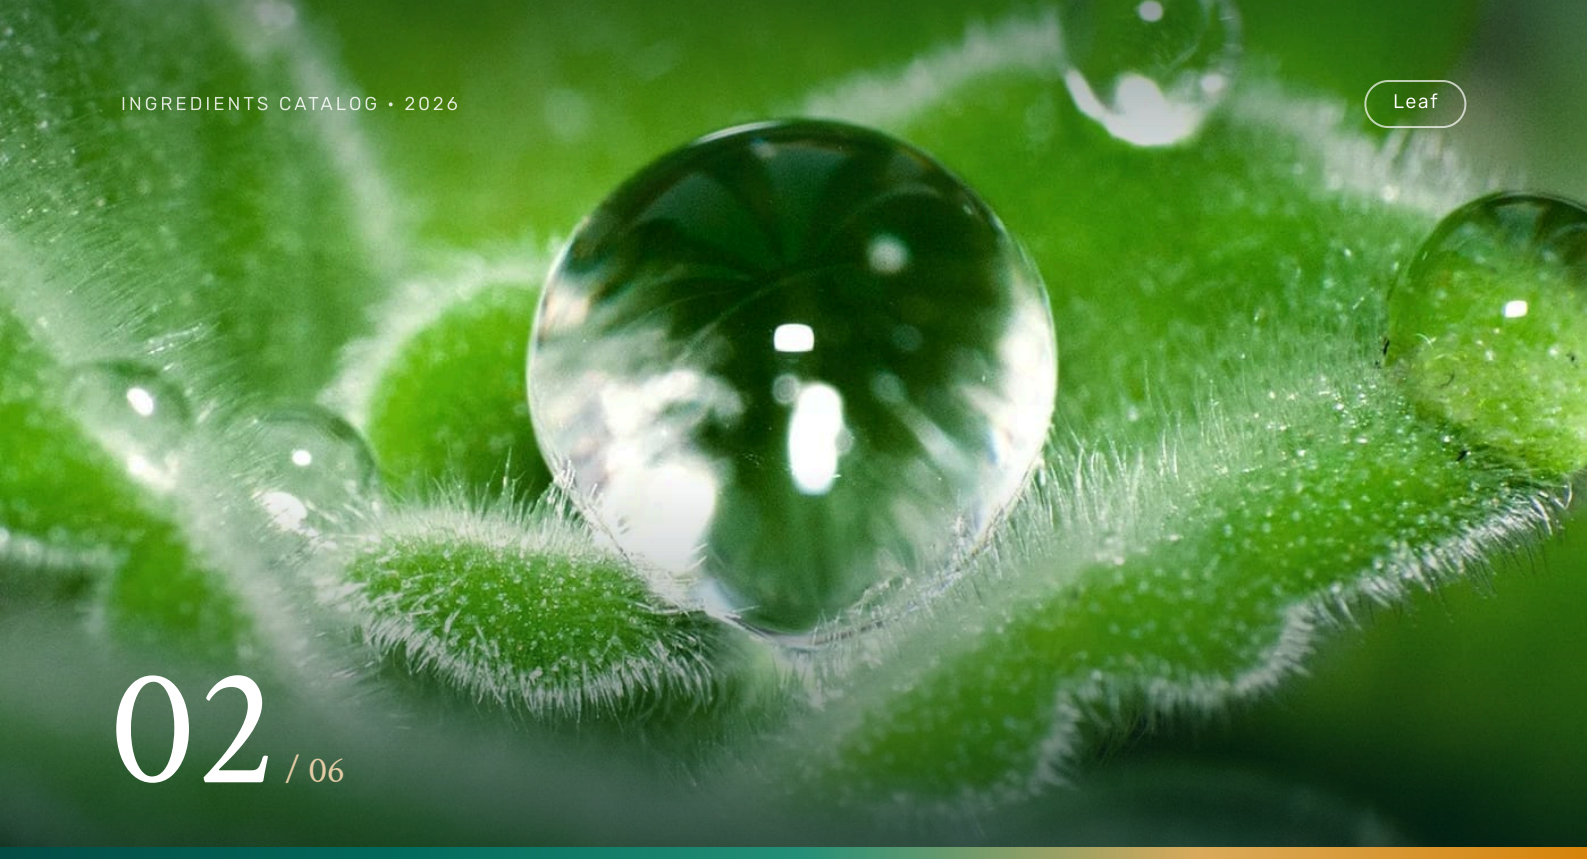

Profile

Family	Resin
Plant part	Resin
Origin	Indonesia

Samples and specification on request

Leaf

02 / 06

Patchouli

Pogostemon cablin

ODOUR PROFILE

Earthy · Woody · Deep

Rich, earthy and woody, with a dark sweetness that deepens over time.

Perfumery usage

A cornerstone of chypre, woody and oriental fragrances, valued for its depth and its staying power.

Did you know?

Patchouli leaves are dried before they are distilled, which helps release their scent.

Profile

Family	Leaf
Plant part	Leaves
Origin	Indonesia

Samples and specification on request

adhiloka.com/ingredients/catalog/patchouli →

Spice

03 / 06

Cinnamon Kerinci

Cinnamomum burmannii

ODOUR PROFILE

Spicy · Warm · Sweet

Warm, sweet and spicy, with all the comfort of cinnamon bark.

Perfumery usage

Adds warmth and vibrancy to spicy, oriental and gourmand compositions.

Did you know?

This cinnamon takes its name from Kerinci, a highland region known for its cinnamon trees.

Profile

Family	Spice
Plant part	Bark
Origin	Indonesia

Samples and specification on request

adhiloka.com/ingredients/catalog/cinnamon-kerinci →

Root

04 / 06

Vetiver Java

Chrysopogon zizanioides

ODOUR PROFILE

Woody · Earthy · Smoky

Deep, woody and earthy, with a dry, smoky edge.

Perfumery usage

Gives structure and elegance to woody, aromatic and chypre fragrances.

Did you know?

Vetiver is a grass, but its scent lies in its roots.

Profile

Family	Root
Plant part	Roots
Origin	Indonesia

Samples and specification on request

adhiloka.com/ingredients/catalog/vetiver-java →

Spice

05 / 06

Clove

Syzygium aromaticum

ODOUR PROFILE

Spicy · Warm · Rich

Warm, rich and spicy, instantly recognisable.

Perfumery usage

Brings a spicy accent to floral, oriental and woody accords, carnation notes above all.

Did you know?

Cloves are the dried flower buds of a tree native to the Maluku Islands of Indonesia.

Profile

Family	Spice
Plant part	Buds
Origin	Indonesia

Samples and specification on request

adhiloka.com/ingredients/catalog/clove →

Spice

06 / 06

Nutmeg & Mace

Myristica fragrans

ODOUR PROFILE

Spicy · Fresh · Aromatic

A fresh, aromatic spice with a warm, gently sweet heart.

Perfumery usage

Lifts the opening of woody, aromatic and spicy fragrances with a lively, natural warmth.

Did you know?

Nutmeg is the seed and mace the red aril around it: two spices from one fruit, native to the Banda Islands.

Profile

Family	Spice
Plant part	Seed and aril
Origin	Indonesia

Samples and specification on request

ORDERING & DOCUMENTS

From enquiry to shipment

01

Enquiry

Tell us which ingredient you are interested in and how you plan to use it.

02

Sample

We send a sample, so that you can evaluate the material in your own work.

03

Quotation

Once the material suits you, we prepare a quotation for the quantity you need.

04

Order

You confirm the order and we agree the details together.

05

Preparation

Your order is prepared and packed with care.

06

Delivery

We ship your order and stay in touch until it arrives.

Documents

Every buyer works to different requirements. Tell us which documents yours calls for and we will confirm what can accompany your order.

Product specification	Certificate of Analysis	Safety Data Sheet
IFRA statement	Allergen statement	Certificate of Origin

Samples, specifications and quotations

Tell us the ingredient and the quantity you have in mind.
